

This handsome little guy is Winston. Winston is a LAPS cat that is currently in foster care. He is around 4-5 months old, hasn't been neutered yet, but will be when he is old enough. Winston had a dislocated leg that required surgery. This surgery was very successful. His foster mommy says he is a total cuddle bug and LOVES to follow you around! If you are interested in adopting Winston, please email [LapsShelter@windstream.net](mailto:LapsShelter@windstream.net).
